

National Cane Shredder

PATENTED UNDER THE LAWS OF THE HAWAIIAN ISLANDS

THE UNDERSIGNED HAVE BEEN APPOINTED SOLE AGENTS FOR these SHREDDERS and are now prepared to receive orders. The great advantages to be derived from the use of the NATIONAL CANE SHREDDERS are thoroughly established and acknowledged by Planters generally.

The large number of Planters using them in the United States, Cuba, Argentine Republic, Peru, Australia and elsewhere, bear witness to the above claim.

The use of the SHREDDER very largely augments the quantity of cane-mill can grind (25 to 30%), also the extraction of juice (5 to 12%).

It is a great safeguard, making known at once the presence of any pieces of iron, stakes from cane, or anything which would be liable to damage the mill, and allowing ample time to remove same before damaging the mill.

The SHREDDER is very strongly made, and from the manner of its operation it cuts or tears these pieces of wood or iron without often breaking the SHREDDER; and if anything breaks, it is simply some of the knives or cutters, which can be quickly and economically replaced. The SHREDDER, as its name indicates, tears the cane into shreds of varying lengths, perfectly opening it and allowing the mill to thoroughly press out the juice without requiring the immense extra power necessary to grind or crush the whole cane. The SHREDDER spreads the shredded cane uniformly and evenly to the mill rolls, and does away with the necessity of spreading the bagasse by hand between the mills, where regrinding is in use. No greater amount of boiler capacity is required to operate the SHREDDER than that which was sufficient for the mill, for the above reasons. We furnish full working drawings for the installation of our SHREDDERS, enabling any competent engineer to successfully install and start them.

In ordering SHREDDERS from us, please send small sketch, showing the diameter and width of the mill rolls with which SHREDDER is to be connected, also the side (either right or left hand as you face the delivery side of the mill), upon which the mill engine is located, also the height from floor line to center of front mill roll shaft, and distance center this shaft to front end of bed plate. These SHREDDERS are now being used by the Hilo Sugar Co. and Hani Mill, Kohala, where they are giving great satisfaction.

Price and further particulars may be had by applying to

BIG GUN PRACTICE

It is Anything But Fun for the Men

on Board Warships.

Talking with one of the Royal Arthur crew the other day he said that to one unaccustomed to the experience, it is anything but pleasant to be on board of a line of battle-ships at sea when the big guns are being fired. Before they are discharged the decks are cleared for action, and all the chairs in the cabin are laid down and tied together, whilst every bit of movable furniture is secured. The doctor goes round and makes sure that every man has his ears stopped with cotton wool. The concussion, when the charges are fired, is tremendous, and the ironclad quivers from stem to stern with the vibration; in fact, the shock of the explosion is so great that every pane of glass in the skylights is invariably shattered, and much of the ornamental woodwork is splintered. After a few hours of this rough play the carpenters have a busy time in making things look presentable once more, for the ship resembles a wreck when she has finished her practice. Nobody likes it. The sailors standing by the big guns sometimes find themselves thrown all of a heap across the deck, and after an hour or two officers and men become as black as sweeps. It is impossible to be well out of the way of annoyance, though, perhaps, the one place in the vessel where the guns trouble the crew the least is down in the engine room, which is below the level of the deck upon which most of the armament is put. - Vancouver World.

Naval Notes.

The United States steamer Yorktown, the second of the Behring Sea patrol, arrived at Vallejo September 24, nine days out from Ounaslaka, and proceeded to Mare Island. The Yorktown left the Mohican, Ranger, Alert and Albatross at Ounaslaka, also H. M. S. Phœnix. The Alert was to sail for Vallejo immediately.

A number of minor repairs will have to be made to the Yorktown before she is ready for service in China.

A board of inquiry will meet at the navy-yard to inquire into the grounding of the United States steamer Adams at St. Paul's Island.

Advices received at San Francisco are to the effect that the future commander of the cruiser Boston, now under repair at the navy-yard, will be Captain Higginson, now on duty at Mare Island as captain of the yard.

Captain Higginson made a short cruise on the Boston and his assignment to the cruiser again is said to be for the purpose of allowing him to complete his sea duty.

The Boston will be ready for service by the last of December.

Richard Rush, which has put in the summer months cruising in the Behring sea as a part of the Behring sea patrol, has passed through the ordeal of a naval survey and has been recommended to undergo extensive repairs and a general overhauling from stem to stern.

To Erase His Name

Sam Nahole, an ex-policeman, called at the Judiciary building yesterday afternoon and requested L. D. Kelipio, member of the board of registration, to erase his name from the register, adding that he wished to withdraw his oath. Mr. Kelipio kindly told the ex-policeman that he had been drinking and advised him to leave the building. This is Nahole's story as related to a reporter of this paper. The man took the oath to get a job, and was only a month on the force when he was discharged.

Tired, Weak, Nervous,

Means impure blood, and overwork or too much strain on brain and body. The only way to cure is to feed the nerves on pure blood.

Thousands of people certify that the best blood purifier, the best nerve tonic and strength builder is Hood's Sarsaparilla. What it has done for others it will also do for you—Hood's Cures.

Hood's Pills cure constipation by restoring peristaltic action of the alimentary canal.

Bare Chance.

Ladies who are on the lookout for Christmas presents should call at the Ceylon Jeweler's store on Nuuanu street, where they can buy the best gems out from Ceylon at clearance sale prices. There are rubies, sapphires, emeralds, pearls, cats' eyes, etc. Also handmade lace, and everything is being sold out regardless of cost.

Miniature Art.

At Williams' Studio are to be seen Portraits on Watch Dials, which he is making a specialty of. Lantern Slides for lecture by the set or dozen.

Carefully Weighed

Calculations Lead to Correct Results.

Where people make a mistake is in supposing that good pictures are necessarily expensive.

We are selling pictures every day, fit to grace any home, the prices of which would astonish those not acquainted with the fact.

It is not necessary to get a first proof etching or engraving in order to have a work of art. The method of reproduction now in vogue, makes it possible for people of moderate means as well as their wealthier neighbor, to gratify their taste for the beautiful.

Great range for the display of taste, in the selection of subjects, is afforded by our keeping pictures in sheet form and mouldings from which to select the frames.

One need never be at a loss to know what to give as a present, at any time or for any purpose, for there is nothing better than a picture.

And KING BROS. is the place to get them.
